To,

**Dr Shijin Raj**

**Professor & Head,**

**Dept. of Rachana Shareera**

**Adichunchanagiri Ayurvedic Medical College, Hospital & Research centre,  
Bengaluru**

**Respected Dr. Shijin Raj,**

**Subject: Invitation to deliver a Guest Lecture on Anatomy of Cerebellum  
and its role in Balance, Posture & Co-ordination.**

It gives us great pleasure to invite you to deliver a guest lecture at **Sushruta Ayurvedic Medical College & Hospital, Bengaluru** on **Monday, 15/12/2025 at 10:30 AM at Lecture Hall 03**. We would be honored if you could address our students on the topic **Anatomy of Cerebellum and its role in Balance, Posture & Co-ordination**, considering your distinguished expertise in the field.

We sincerely believe that your interaction with the students will be intellectually rewarding and provide valuable learning opportunities for our students.

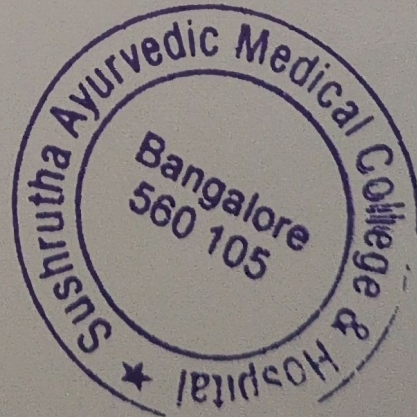

We kindly request you to confirm your availability for the scheduled session at your earliest convenience.

Yours sincerely,

**Dr. Remitha KK**

**Professor & Head,**

**Dept. of Rachana Shareera**

**Dean of Academics**  
**ACADEMIC DEAN**  
**SAMC & H, BANGALORE**

**Principal**

**PRINCIPAL**

**Sushruta Ayurvedic Medical College  
and Hospital, Bengaluru-560105.**

### Guest Lecture on Anatomy of the Cerebellum

The Department of Rachana Shareera at Sushrutha Ayurvedic Medical College & Hospital (SAMC & H), Bengaluru, organised an insightful guest lecture for I BAMS (Batch 2024) in Lecture Hall 03 on **Monday, December 15, 2025.**

**Topic: Anatomy of the cerebellum and its critical role in balance, posture, and coordination".**

**Resource Person: Dr. Shijin Raj, Professor and Head,**

**Dept of Rachana Shareera**

**Adichunchanagiri Ayurvedic Medical College, Bengaluru**

**Time: 10:30 AM - 1:00 PM**

Dr. Shijin utilized his expertise to bridge the gap between complex neuroanatomical structures and their physiological manifestations in human movement. The session provided a comprehensive technical overview of hindbrain pathways and motor control mechanisms, followed by an interactive Q & A session that allowed students to explore the clinical significance of cerebellar functions.

This collaborative academic event successfully enriched the students' intellectual understanding of functional anatomy, offering them practical insights beyond the standard curriculum.
